

## FACTS AND FIGURES

For the Intelligent American Voter.

### Increase in Exports

The protective tariff has not checked the volume of our exports, as the following figures show:  
Yearly average '93 to '96. \$149,000,000  
Yearly average '97 to '99. 484,768,000

### Per Capita Circulation.

On July 1, 1896, under the last democratic administration, the per capita of money in circulation in the United States was \$21.10. This year, on June 1, it was \$26.71 per capita, an increase of \$5.61 for every inhabitant in the country.

### Money in Circulation.

Note the following figures of money in circulation in the United States:  
June 1, 1900. \$2,074,637,871  
July 1, 1896. \$1,506,434,966  
The republican increase in four years was \$568,202,905.

### Commercial Expansion.

Our national prosperity is becoming more and more dependent upon a steady and large increase in our exports. This suggests that our continued dependence upon foreign ships for 90 per cent of our foreign carrying is a great national danger.

### A Contrast

With an available cash balance of almost three hundred million dollars (\$300,000,000) in the Treasury at Washington, the nation's finances are in considerably better shape than they were when Grover Cleveland and Secretary Carlisle were hunting around to sell United States bonds in the London market at high rates on interest.

### Where the Farmer Comes In

Idaho fruit sold at the Chicago market in 1896 for just enough money to pay the freight. This year it has been sold at \$1.00 per crate of twenty-five pounds, the freight being \$1.00 per 100 pounds. Hay sold in Idaho at \$2.50 per ton in 1896. This year it has sold at \$5 per ton. Hogs sold there for 3 cents per pound in 1896. Within the last few months similar hogs have sold for 4 cents per pound.

### The Tin Plate Industry.

Since the establishment of tin plate industry in the United States, there has been saved to this country upwards of \$100,000,000. We used to import Welsh tin plate, made by the Welsh trust, to the value of \$20,000,000 a year. The Welsh tin plate trust is not subject to our laws, and pays nothing in the way of taxation toward the United States treasury. Still the democratic party fought tooth and nail against taking away the trade from them and giving it to American factories.

### Gilt Edged American Credit.

Money in the United States is cheaper than anywhere else in the world. At the market price in April, the average earnings for our 4 per cent bonds of 1925 were 2.244 per cent; for the 4's of 1907 the earnings were 1.857 per cent; for the 3's, 1.738 per cent; for the 5's, 1.452 per cent. German 3's per cent sold at 90 to 97, and German 3's at 86 to 88, so that their earnings to the buyer were more than the interest stated. The premium on British consols is about 1 per cent, and their earnings vary a little above the face interest.

### Movement Of Gold.

The following statement of the movement of gold to and from the United States is interesting:  
Calendar. Excess of Year. Exports. Imports. Exports.  
1894 \$101,978,689 \$21,350,607 \$80,628,082  
1895 104,967,402 34,396,392 70,571,010

Cleveland Excess of exports, two years. \$151,199,092  
1897 \$34,276,401 \$34,022,812 \$253,589  
1898 16,194,954 158,151,852 141,956,898

McKinley Excess of Imports, two years. \$141,703,309  
Difference between the two administrations. \$292,902,401

### West Virginia's Prosperity

West Virginia's coal output increased from 11,400,000 tons in 1895 to 18,750,000 tons last year, giving employment to nearly 11,000 more men, who worked every day in that year, instead of 195 days in 1895. The bank deposits in that state have doubled within the same period. Trade failures have decreased by two-thirds. The value of the sheep has increased by 50 per cent, while the price of the wool has doubled. Tobacco is worth considerably more money now than under the last democratic administration. The lumber mills and factories are running full time, and it is safe to predict that West Virginia will stay in the republican column.

### What Prosperity Means.

The Washington Post, in an able editorial, contrasts the surplus of three hundred million dollars in the United States Treasury at the present time, with the balance four years ago which was the result of bond issues in a time of peace. It also shows that notwithstanding the heavy war expenses that have been, and are being incurred, the surplus for this fiscal year will amount to about \$65,000,000 as compared with the deficit of nearly \$30,000,000 four years ago. It is pointed out that this is not the result of the war taxes alone, because, comparing the month of May this year with May, 1896, there was an increase of almost \$6,500,000 this year in receipts from customs in that month alone.

### What Our Islands Are Worth

The people of the United States are paying \$1,000,000 a day for tropical products used in American manufactures, or for food and drink. Most of the articles can be produced in a more or less degree in the islands which have recently come into closer rela-

tionship with the United States. These articles comprise sugar, coffee, silk, rubber, fibers, fruits and nuts, tobacco, tea, cotton, gums, coconuts, spices, rice, cabinet and dye woods, liquorice root, indigo, cork wood, ivory, sponges, etc. As our island possessions begin to develop under American administration, we shall procure more of such articles from those sources, and in return for our purchases the people of the islands will buy more of the products of our farms and factories.

### Nebraska Mortgages.

The following figures of mortgages filed on Nebraska farms are interesting:

Year.	Number.	Amount.
1894	24,842	\$23,755,233
1899	18,258	12,844,415

An equally interesting statement is the showing of mortgages released in Nebraska, as follows:

Year.	Number.	Amount.
1895	50,419	\$29,269,949
1899	79,932	49,232,765

### Nebraska Live Stock Values.

Nebraska live stock values compare as follows:

	1895	1900.
Horses	\$17,715,202	\$28,120,512
Mules	1,794,246	2,384,667
Cows	9,474,974	24,329,499
Other cattle	16,333,731	46,220,249
Sheep	339,783	1,090,807
	\$45,657,896	\$102,145,734

There were 18,532 bank depositors in Colorado in 1894. Last year there were over 30,000, and the total amount of the deposits increased within the same period from \$9,380,000 up to \$20,000,000.

## RECEPTION COMMITTEE

Of the Teachers' Convention  
Take Important Steps.

### TWO THOUSAND DOLLARS

Has Already Been Subscribed For Entertainment Purposes, and Every Possible Effort Will Be Made To Entertain the Visitors On a Grand Scale.

The reception committee met at the city hall last night and many important subjects in reference to the entertainment of the teachers were decided. The meeting was called to order by the mayor a few minutes past eight o'clock. The following were present: Mayor Magoffin, chairman; Professor Putnam, A. P. Coles, H. B. Chase, Felix Martinez, Professor Roach, Dr. F. W. Gallagher, J. A. Smith, Capt. T. J. Beall, J. H. White, B. S. Casila, Dr. and Mrs. J. A. Rawlings, P. M. Millepaugh, T. E. Shelton, J. R. Freeman, Dr. E. H. Irvin, Judge Harper.

The committee appointed by the mayor for the purpose of getting a list of those willing to let rooms for the accommodation of the teachers made its report. They have secured beds for 2164 persons and hope to get more in the next few days. Those who have not been seen by the committee, or those who have been seen and who find that they can spare another bed or two, will please send in their names to the mayor at once.

The average price for rooms will be 50 cents, and while there will be some rooms over this price few will be rented for less. The names of those who have rooms to spare are being kept in a book and visitors will be sent direct from the train to their stopping places. The books also show whether male or female roomers are wanted, and those who accept women roomers only will be sure to get them.

There were ordered printed 2500 cards, which will be for the use of the committee who meet the trains. On each card will be written the address of a place where roomers may be accommodated and the price charged for the room per day. A card of this kind will be given to each visitor first to the teachers and women visitors and then to other visitors.

It was agreed that the mayor name a committee to meet the trains at stations near El Paso, and while coming in, provide the people with addresses of homes where rooms could be procured. This method will relieve any congestion at the depots, other than providing vehicles. The committee will meet the trains at Toyah on the Texas & Pacific and Sanderson on the G. H. & S. A.; others will board the trains at Sierra Blanca.

After some discussion it was decided to send only teachers to the houses that had promised to take them, and not to give out the cards promiscuously to any one and every one.

It was decided to use one porch of the court house for the headquarters of the teachers only, and the general information bureau and headquarters will be either in the chamber of commerce, in case the building is ready in time, or in the D. R. Francis building, a room there having been offered by B. F. Hammett.

The mayor was requested by the committee to call upon the different transfer and carriage owners in the city and ask of them that no charge in excess of 25 cents be made for carrying the visitors from the train to their rooms.

There are to be placed in the plaza, court house, Chopin hall, city hall central school, and general headquarters barrels of ice water for the visitors. There will be men employed to haul water from the mesa and see that the barrels are kept full and supplied with plenty of ice.

Mrs. Rawling speaking for the women of the city, said that they would do all in their power to make the convention a success, and that if the committee had any requests to make they should be made at once. The women were to hold a meeting in the city hall today at ten o'clock.

Messrs. Catlin and Putnam were appointed a committee to secure banners, chairs, and tables for the various
